Assessor Comments	A great line of Black Baldy heifers and calves that are only being sold due to the sale of the property. Heifers are very quiet and walked through the round yard and race without any effort at all. 1 calf appears to be weaned and 4 heifers appear to have dried off, rather than risk mis mothering the entire 57 heifers will be sold. All heifers calved with only two assisted, two calves born in blizzard like conditions did not survive the night. Genuine herd dispersal, a great opportunity to secure a good sized mob of quality heifers and calves.
