Temperament

Yards	Crush	Paddock
Quiet: 51 head Slightly Stirry: 8 head	Quiet: 45 head Slightly Stirry: 10 head Stirry: 4 head	Temperament not assessed in Paddock

Cows are generally good to draft and had plenty of block and stop in them, they do have some run in them and were unsettled when under pressure in the crush, but calmed down well once back as a group. We did mouth each one so explains why they did become unsettle in the crush as well.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot
Assessor Comments	A load of good Bos Indicus cross cow, plenty of frame and weight and have been assessed after a full overnight curfew after preg testing. They are doing an outstanding job on the weaners at foot, who wont be weaned until delivery. Predominately flat back cows that whose progeny would suit a range of markets, especially with the Te Mania angus calves inside them now. At preg testing 35 were deemed to be 4 to 6 months in calf and are marked with pink paint. Only 2 cows noted to have some small scarring in one eye, no other faults noted. These were the lead draft of the cows with another line of 31 to be offered as well. Not all age brands were visible so age is an approximation based on their mouths.
