	Cows had been run through yards several times before assessment to be preg tested and drafted. 1 cow had been quite agitated after being singled out however when in larger mobs was ok to handle. 2 more cows stirred once being handled a few times. Others handled will especially when back amongst larger mob.		
Handled With	Bikes , Horses , On foot , Vehicles		
Assessor Comments	A good small line of PTIC Dughtmaster cross cows. These cows originated from Bellfield Station Richmond QLD. Bellfield Station uses Gypsy Plains Brahman And Powermac Droughtmaster sires. These cows had excellent soft vealers recently taken off and sold. Cows are PTIC to top end Alpine Charolais sires who select for early growth and soft easy doing qualities. Calves by the Alpine sires over sisters of these cows have produced quality, soft coated, weighty vealers that also go on to heavy weights. This small line of cows are only for sale due to being slightly out of whack in calving window to larger portion of the mob of these cows.
