Vendor Comments A good line of heifers that have done well and joined well since purchasing them from central QLD as a trade opportunity.

Joining Details	Station Mated - Continuously Joined Bull Breed(s): Droughtmaster, Angus		
Preg Tested?	Yes, this lot was pregnancy tested, by Tony Walsh (Non-Vet Contractor) on 09/09/2021. 57 Head (100%) PTIC, from 2 to 8.5 months (at time of assessment). Certificate Available.		
Other Joining Details	19 scanned Red tag in calf to Rondel Droughtmaster bull, 38 scanned Blue tag in calf to Gilmandyke Angus bull.		
Temperament	Yards	Crush	Paddock
	Quiet: 28 head Slightly Stirry: 25 head Stirry: 4 head	Quiet: 28 head Slightly Stirry: 25 head Stirry: 4 head	Temperament not assessed in Paddock
	A good line of heifers to handle as a whole in the yards. When assessed heifers were just ran through for weighing and there were no issues. Some heifers when singled out became flightier but as a mob handled well. Heifers have been used to running in larger groups and seem to want to move around as one and bunch up in yards.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A quality, weighty line of heifers PTIC for their first calf to Rondel Droughtmaster and Gilmandyke Angus bulls. These heifers were originally purchased from central QLD as one lot and at the time had access to Rondel Droughtmaster bull. Since arriving at Native Dog these heifers have been running with a top quality Gilmandyke Angus bull (Gilmandyke Reality L120) who has been joined to and calved many heifers with ease. Overall a stylish mob of heifers that are well grown that will make excellent matrons.
