	Quiet: 29 head	Quiet: 28 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
Handled With	On foot , Vehicles		
Assessor Comments	A line of large frame Angus cows 4-8 years of age, with 3-8 week old Angus calves at foot, Rennylea Angus blood and depastured to Millah Murrah blood Angus bull for 4 days prior to assessment and will stay in till delivery. These cows have a large percentage of 4 year old cows in the consignment and were purchased as a herd dispersal. 4 of the 8 year old cows were mouthed and all sound (photo attached), vendor mouthed all cows pre calving and were all sound. 1 cow has a white patch on head and her calf has a small white fleck on head (photo attached). 5 cows have white on udder and 1 cow blue scar on eye. These Cows have plenty of capacity to get heavier and are pumping plenty of milk into their calves which showing through their softness and depth. A great opportunity to secure a line of productive quality units.		
Assessor	Danny Tink (Level 1 Accredited) Parallel Assessed By : Chris Schutz
