Assessor Comments	Outstanding 2 year old Angus heifers with sappy Jarabee blood calves at foot. The calves were born in July and August over a tight six week period with 100% live calf ratio from joining. 17 of these heifers were purchased from Calview pastoral Angus stud on the 12/6/20 as Lawson blood weaners and the other 4 heifers are vendor breed by a Alpine Angus bull. Jarabee Judd Q116 is the sire of the Calves, they have had their first shot of 5in1 and have all been marked at the end of August. I was impressed by the udders and milk that the heifers have and also the ability to hold there condition. Highly recommended.
