Assessor Comments	Very good quality vendor bred Dunoon blood cows PTIC to Dunoon P287 to commence calving late November. Solid medium frame comes with great nature due to have their 2nd and 3rd calves (4x 2nd 10x 3rd). Only offered for sale as they are calving out of sync with vendors operation and would be easily pushed back to a traditional autumn calving in future. In good forward to prime condition and would make a great addition to any Angus breeding herd with years of production ahead of them.
