Assessor Comments	Offering 178 Merino Wethers. These wethers were 56.3kg live at assessment and are currently in very good condition. The wethers are majority Purple Tag 2020 autumn drop with only a small percentage of older sheep. These wethers are vendor bred from quality Egelabra bloodline rams and generally show well styled wool that was 50mm average length at assessment. This mob of wethers would suit the processor, trader or genuine wool grower as they have the condition and weight to hang up or are ready to go with a generous fleece on their back. Please note approximately 3 wethers are included that have been recently shorn. Also some in the mob have untipped horn as can be seen in the photos. Also please note there are another 2 lots of sheep from the same vendor in the Tuesday sales.
