Assessor Comments	Merino ewes scanned twins to White Suffolk rams, ewes present in good store to forward condition. Mouthed ewes handled through weigh crate (36 head) 4 broken balance sound mouth. Bit of variance in wool length due to various shearings. Small stain on some ewes, would advise crutching prior to lambing down, some longer wool ewes have been crutched. Vendor has jetted (crt) with blowfly & lice at assessment. Good proven breeders, ideal to lamb down and split.
