Assessor Comments	This is a great line of maiden ewes that will be great mothers in either a merino or terminal operation. There is over 30 years of Egelabra genetics in these ewes that are by specially selected rams and from a annually classed flock. They carry a very soft bright fleece and have great structure and frame. There has been a 15% tail removed from this line and they present very well. Their sisters have consistently placed and won the district ewe competition over the years. The vendor has shearers lined up to crutch ewes prior to delivery. There is a small percentage with slight scur as per photos.
