Vendor Comments	First time we have offered our ewe lambs. These ewes have got RFID tags.
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	Total of 250 (to be offered as 5 lots of 50) NSM Australian White ewe lambs A/c Illinois Farms that come with the highest recommendation. These ewes are bred out of a very good flock selected for shedding ability & growth. The Johnstone family select top end stud rams & have invested heavily in the breed since 2013 by purchasing Australian White rams exclusively to put over White Dorper ewes. Typically in the tablelands these sheep go through winter carrying the wool tip they are born with & start to shed as we go into the warmer months. As you can see in the photos these ewes are starting to loose their wool from the shoulders & bellies. They present in forward condition & are well on their way to being joinable late spring. To be delivered as a run out the gate.
