Assessor Comments	Opportunity knocks. On offer is a small but high quality line of Tattykeel blood and Tattykeel red tagged ewe hoggets that are scanned in lamb to Tattykeel rams for multiples to commenced lambing early October. These are from a flock with a focus on shedding ability, growth, fertility and black hooves. All ewes lambs in the flock are joined at 6-7 months of age with lambing percentages of 130% regularly obtained as maidens. Ewes show excellent growth and weight for age and are in ideal condition for lambing next month. Beautiful young ewes that are ready to perform in any environment.
