Mulesed	No
Shearing Info	Unshorn Not Crutched
Wool Length	20% 0 - 0.25" 20% 0.25 - 0.5" 20% 0.5 - 1" 40% 1 - 1.5"
Majority Length	35 Millimetres
Degree Burr	Nil
Degree Seed	None Observed
Skin Comment	Clean pink healthy skins
Wool Comment	I would expect to be good shedding types. Range from clean shedding to starting to shed, with the majority of ewes wool starting to peel off with the warmer weather. (refer to photos)

Vendor Bred	Yes
Stock History	Vendor has been on Tattykeel blood for many years
Bloodlines	Vendor has only purchased top end Tattykeel flock rams with a focus on clean shedding, black feet and points, fast growth, and fertility.

Grazing Conditions	Fresh green improved pastures, clover and phalaris based
	Returned same

Introduced Sheep	Rams Only have been introduced onto the consignment property in the last 5 years
Footrot	All consigned sheep are from a flock that is free of Virulent Footrot Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald Further Information: Scald can occur at certain times of the in an usually wet year Feet were not inspected at assessment

Eligibilities	Russian Eligible Saudi Eligible
Health Declaration	A National Sheep Health Declaration will be provided at Delivery AT BUYER REQUEST
JD Approved Vaccinates	Sheep are not JD Approved Vaccinates.

Vendor Comments	Beautiful ewe hoggets scanned in lamb. These ewes were scanned 100% in lamb but because of the late scanning there is a possibility that there is a percentage of twins amongst them. We are very happy with the way this drop of ewes have grown out

Joining Details	Station Mated ram(s) put in: 13/05/2021 ram(s) taken out: 30/06/2021 (49 days) Ram Breed(s): Australian White at 3.0% Rams To the vendors best knowledge, this lot has had no access to rams or stags aside from stated joining period.
Preg Scanned?	Yes, this lot was pregnancy scanned, by Stuart Naylor (Non-Vet Contractor on 10/09/2021). 100 % Scanned in Lamb, from 3 to 4 months (at time of assessment).
Other Joining Details	Due to the late pregnancy scanning, detection of multiples was difficult. I would think there is a possibility of twins bearers in this mob also.

Quality Grades		Wrinkle Score		Carcase Quality	
Excellent	100%	Plain	100%	ETQ	100%

Assessor Comments	Opportunity knocks. On offer is a small but high quality line of Tattykeel blood and Tattykeel red tagged certified ewe hoggets that are scanned in lamb to Tattykeel rams for singles to commenced lambing early October (there is a chance that a percentage of these ewes could bear twins but because of the late scanning were they were to advanced to decipher multiples accurately) These are from a flock with a focus on shedding ability, growth, fertility and black hooves. All ewes lambs in the flock are joined at 6-7 months of age with lambing percentages of 130% regularly obtained as maidens. Ewes show excellent growth and weight for age and are in ideal condition for lambing next month. Beautiful young ewes that are ready to perform in any environment. There is a total of 53 ewes in this mob and will be offered as a run out the gate of 27 and 26 head. (please note one ewe in the mob with a tail)
Assessor	**Greg Holt (Level 2 Accredited)** Phone: 0428 996 351

Delivery Period	21/09/2021 to 24/09/2021 (4 days)
