| Any Access To Rams or Stags? | To vendor's best knowledge, this lot has had no access to rams or stags.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |            |                       |
| Assessor Comments            | A good, small group of Yarrowonga blood, predominantly plain-bodied Merino ewe lambs which would be highly suitable to restockers joining to terminal sires for prime lamb production. The ewes demonstrate great growth and structure - true to breeding qualities of Yarrowonga bloodlines. Tiverton Partnership have been purchasing Yarrowonga Poll Merino rams for more than 10 years. All the Merino ewes at Tiverton are Gudair vaccinated as lambs. The ewes also received a light mulesing, using Tri-Solfen for pain relief. The 12-13 month aged ewes averaged 53.7kg live weight at assessment. |            |                       |
