Assessor Comments	Medium framed NSM ewes 13/14 months old. These ewes have never been joined and are genuine not station mated. They averaged 47.2 kg at assessment and will continue to put weight on with spring upon us. They have been grazing short natural pastures and are fresh and healthy. Ewes were shorn 4 weeks ago for your convenience. Mouthed a sample through the weigh crate with the lighter ewes still having full lambs teeth while some heavier ewes were breaking teeth. These ewes were purchased in to utilise feed and be offered for sale in the spring. A handy line of yearling ewes to join to the ram of your choice.
