Assessor	This is a flock dispersal of 350 Dell Dorper blood ewes. These ewes are mixed aged White Dorper ewes from 2016 black tags to 2019 green tags, will be offered in two lots of 175. They have not been rejoined to give you the opportunity to join them at your own leisure. All the Black tagged ewes have been mouthed and are sound. Ewes will be divided evenly in their age groups if sold in 175 lots. Ewes have had their lambs weaned off them four weeks ago. Some of the ewes are lighter in condition from rearing a lamb, or lambs in cold and wet winter conditions. They have always had access to lick blocks and all their treatments. Ewes weaned an excellent line of lambs this year, lambs have averaged around 400 gm per day. This is a great opportunity to purchase a clearing sale line of White Dorper ewes. Majority of these ewes are good shedders and will do well in any environment.
