Boasting an impressive 60kg body weight whilst only being June/July drop and receiving no supplementary feeding through a tight autumn & winter these ewes have natural do-ability to both survive and thrive. 50% of the ewes still carrying lambs teeth at assessment. Large framed sheep with confirmation and constitution whilst also having heavy cutting nourished soft handling wool's. MN3 & Brucellosis Accredited. If your intention is to join these back to merinos please talk to myself in regards to a special offer available on Collinsville rams when you purchase females from the stud. The next 400 young ewes from this mob will be made available after the successful sale of the line offered today. ** Offered in two lines of 200 as a run out the gate**
