Assessor Comments	Quality young ewes 13-14 months NSM and ready for the rams. The Delhi Downs flock is highly regarded and has been on Bundilla bloodlines for the past 12 years. These ewes are being offered as the vendor has too many ewes on hand, so these have been taken out of the original "keeper" ewe replacements. These ewes are generally plain in the body with plenty of length and butt profile and are of excellent quality. The mothers are big barrelled ewes and given the opportunity these young maidens will certainly develop into same quality breeding ewes. Gudair vaccination has been in place for 18 years on Delhi Downs and flock average is 19 micron on the wool side. Can Recommend !!
