Assessor Comments	An quality line of 2.5yr old Dohne ewes. Coonong has been using DD and Calga genetics within their flock for many years, producing robust, bare breached, versatile ewes with an average live weight of 66kg . These ewes have had the chance with Triggervale and Warburn White Suffolk Rams but scanning missed the ewes that were joined in the last cycle in the joining period, giving them a 2 week window to the ram. This is a easy care package with being shorn in September, all the hard work is done for you ready to lamb down. Please note some ewes may still have udders with lambs being recently weaned, with some also having a few shearing cuts. Vendor has another 9 lines in the sale.
