Assessor Comments	Neat line of 2018 drop ewes in their prime for breeding, there is 6 younger green tag ewes in this offering. These ewes have put on good condition after having lambs weaned and have had a barley and bean feeder ad lib since shearing. There is 12 ewes that were shorn a month earlier and have the longer skins in the pictures, were just in a different mob at time of shearing. Good ewes for either xb or merino lamb production.
