Vendor Comments	Annual Selling of Wether lambs		
Assessor Comments	Offering on behalf of CA + JM Smith is the top draft of 310, MAR/APR drop Gunallo Bld Wether Lambs. These lambs present in a forward condition having picked up considerably post shearing and averaged 38.5kg over the scales. They are September shorn where they cut 2kgs of 17micron wool. They have been backlined (avenge), drenched (firstmectin) and Vaccinated (6 in 1) so you can buy with confidence knowing the hard work has been done. Fantastic line with great stretch and growth to take on as wool growing wethers or to fatten for domestic/export markets.
