Assessor Comments	Offering on behalf of SH, AF, AM & RA Clark is the top draft of 248 MAR/APR 2021 drop, Hilton Heath bld Wether Lambs. Lambs present with a good amount of cover & frame and averaged 38.2kg over the scales. They were August shorn where they cut 1.5kg of 20micron wool. They have been backlined (Avenge), drenched (Startect) and vaccinated (6 in 1) off shears so they can be taken on with no extra work needed. A large percentage of this mob has some amount of scur/horn. Please note that the Brome Grass seed noted on assessment was picked up on the way to the yards and only appears to be outside of the skin. A top quality line of Weather lambs with a great start under their belts to put out and fatten for domestic/export markets or taken on a wool growing wethers.
