Comment on Fat Score 1 Cattle: Heifers are fit to travel up to 1200 km from Julia reek in one lift. A 12 hour spell is recommended at 800 km if traveling further then 1200 km in one lift. Heifers are in a light store condition however have been in yards on minimal feed since from Sunday to assessment on wednesday and drafted twice in this time, would expect them to freshen up slightly once back in the paddock.

Vendor Bred: Yes

Stock History: 100% of mob are vendor bred on property at "Bow Park", using quality Beefmaster genetics since 1960's. Beefmaster was recognised 90 years ago as the first composite breed in the USA. Breed is a combination of 50% Brahman & 50% British breeds.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: Out of Vendor Bred, large frame Beefmaster Cows by Beefmaster bulls. Beefmasters adapt to the environment they are bred in for survivability.

Grazing Conditions: Open downs black soil country, pastured with a dry body of mitchell/flinders grass & out of season herbages. Heifers have been exposed to grazing tree browse.
Returned same

Burr/Seed in Coat: No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status: The owner declares that the cattle have not been treated with HGP at any period of their lives

Chemical Residue: Nil

J-BAS Score: 6

Small	8%	Fair	15%				

Temperament

Yards	Crush	Paddock
Quiet: 120 head Slightly Stirry: 18 head Stirry: 6 head	Quiet: 114 head Slightly Stirry: 21 head Stirry: 9 head	Temperament not assessed in Paddock

Good to fair to handle in the paddock and yards. Mustered with Motorbike & Gyro. In the crush/race a fair percentage became slightly agitated however mob generally settled down quickly. generally worked well in larger yards however still had a reasonable flight zone and moved quickly off pressure. no heifers considered aggressive and would expect them to respond well to more handling.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes
Assessor Comments	Good Quality backgrounder or breeding line of Vendor bred, EU Accredited Heifers. Displaying good to fair muscling with moderate frame and reasonable bone. Currently in store condition, heifers had spent 4 days in the yards with minimal feed at assessment, and display plenty of compensatory & growth potential on productive pasture. Estimate majority of these heifers to grade MSA. Drafted into a line of sub 280kg heifers that would not be expected to be in calf although have been exposed to bulls for a 2 month period. approx 40% have minor hump definition. A good to fair quality line of heifers in store condition with Medium frames and plenty of capacity to grow into breeders or trade heifers. Heifers branded number 0. The mob are 74% reds and honeys, 10% black / brindle / Brown, 16% grey. 1 x heifer with very slight twist in nose. Approximately 10/15 heifers have broken or slightly long toes that would be expected to clean up on tighter soils or harder country.
Assessor	**Ashley Naclerio (Level 1 Accredited)** Phone: 0400 448 679
Delivery Period	18/10/2021 to 22/10/2021 (5 days)
