Comment on Fat Score 1 Cattle	Fat score 1 heifers are all in strong condition and fit to travel long distances, however may need to be spelled if going more than 1200km.
Vendor Bred	Yes
Stock History	Heifers bred from very fertile Medium Framed Brahman and Brahman Cross cows. Heifers were sired by Three D and Jaffra Brahman Bulls
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Grazing Conditions	Since weaning heifers have been grazing on red sandy country grassed with Spinifex, Buffel and Forest Bluegrass with patches of black soil flats growing Mitchell and Flinders grass. The last month heifers have been on green feed after 70mm of rain. Returned to: Large holding paddock with good quality green Mitchell and dried off Flinders grass
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Eligibilities	Russian Eligible Saudi Eligible
J-BAS Score	6
Vendor Comments	Since the rain a month ago, these heifers are just starting to adapt and showing good signs of going ahead.
Joining Details	Not Station Mated

Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.

Frame		Quality Grades	
Large	3%	Very Good	11%

Small	25%	Fair	9%
		Plain	2%

Temperament

Yards	Crush	Paddock
Docile: 10 head Quiet: 137 head Slightly Stirry: 8 head Stirry: 5 head	Docile: 8 head Quiet: 130 head Slightly Stirry: 15 head Stirry: 7 head	Temperament not assessed in Paddock

Heifers are well handled and all worked very well through race draft in yards, and settled down quickly once out in big yard. They were a pleasure to work both in the crush and yards.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Horses
Assessor Comments	160 heifers that at assessment ranged from 174-293 kg and averaged 230 kg. Since weaning these heifers have been running on red spinifex country that had dried out and so they had done nothing for many months. The paddock did receive 70mm of rain recently and these heifers have just started to do very well, so are ready to bound ahead. Of the 142 Brahman Heifers there is approximately 97 greys, 26 red and honey and 16 black and brindle. There is 1 heifer with a white face and 1 heifer has small warts on her neck. About 33% of the dehorned heifers have some horn regrowth and may require trimming in the future. Their temperament is very good and they have been well handled. There is 3 family brands in the mob. These heifers would ideally be suited to grow into small to medium framed low maintenance very fertile breeders, or live export feeder heifers. The heifers are located in tick area and if going to tick free country, they will be cleared of tick on property at vendors expense.
