Best described as good quiet well handled weaners. Most were very good to handle through the yards & race. There were only two that were stirry in the crush and out in the yard. They tended to stir up a few of the others. They have been round yard drafted.

| Assessor Comments | 76 Good Quality HGP free crossbred flatback weaner steers - two steers have a very small crest showing a little more content. The majority have good bone, length & frame for their age. The Brangus & Brangus / Wagu cross steers exhibit the ligter bone & frame that is expected with the breed. These steers would be ideal to grow out to feeder weights or finish on grass or grain. They are very quiet and well handled & have good feet. They are tidy around the head with 2 steers that had been dehorned just over three weeks ago. These steers will be fully healed up by delivery. There are 2 brindles and 6 head with Ringworm markings as seen in the photos. Two steers have a blue spot in their eye. These steers are light in condition but healthy therefore they would have a very qood compensatory weight gain on good feed. Vendor has two decks of heifers (including 8 small steers) in this sale and would like a co-ordinated delivery with the heifers as they are running in the same paddock. |
