Best described as good quiet well handled weaners. Most were very good to handle through the yards & race. There were four that were stirry in the crush and out in the yard. They tended to stir up a few of the others. They have been round yard drafted.

Handled With	Bikes
Assessor Comments	70 GQ HGP free crossbred flatback weaner heifers & 8 flatback steers - two heifers & two steers have a very small crest showing a little more content. The majority have good bone, length & frame for their age. The Brangus & Brangus / Wagu cross heifers exhibit ligter bone & frame that is expected with the breed. These heifers would be ideal to grow out to domestic feeder weights. They are very quiet and well handled & have good feet. They are tidy around the head with 8 hfrs, 2 strs have been dehorned just over three weeks ago. These weaners will be fully healed up by delivery. There are 7 head with Ringworm markings as seen in the photos. Two heifers had a blue spot in the eye. These heifers are light in condition but healthy therefore they would have a very qood compensatory weight gain on good feed. Vendor has two decks of steers in this sale and would like a co-ordinated delivery with the steers as they are running in the same paddock. 70 heifers av 201 kg & 8 steers av 158 kg.
