Assessor Comments	120 Quality Xbred steers that have plenty of frame, bone and growth for their age. These steers are in ideal condition to go ahead being fresh and healthy but not sappy. They will all be fully yard weaned by delivery and are being feed quality Rhodes grass hay and Beachport Liquid Minerals. This line of steers are 195-354kg to average 263kg at assesment. Vendor would usually grow out to heavy feeders but is making room for breeders and replacement heifers. Majority of the steers are by Mountain View or Branch View Charolais & Rhondel Droughtmaster Bulls. Buyers these steers will not disappoint and grow into heavy feeders quickly on good feed.
