Comment on Fat Score 1 Cattle	Any score 1's are mostly pretty fresh and fit to travel any required distances.
Vendor Bred	Yes
Stock History	Bred from very good quality Angus heifers purchased Sept 2020 ex: Dunedoo NSW on A+ as PTIC to Angus bulls. Odd purchased heifer had a slight bit of cross in her & it still shows in some of the progeny which have been removed and offered separately.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Angus bloodlines used are unknown due to being bred out of purchased heifers.
Grazing Conditions	Running on a very good quality lush body of native summer grasses and winter herbages from a wet winter and early spring storm activity. Returned same
Burr/Seed in Coat	Clover burr noticed in the winter coats and tail brushes.
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Chemical Residue	Clear - No known history.
Eligibilities	Russian Eligible Saudi Eligible PCAS Eligible
J-BAS Score	6
Vendor Comments	Heifers have had no grain or antibiotics at any stage of their life.
Joining Details	Not Station Mated

Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.
Temperament	

Yards	Crush	Paddock
Quiet: 2 head Stirry: 1 head	Quiet: 2 head Stirry: 1 head	Temperament not assessed in Paddock

Two heifers were very quiet to handle in all sections of the yards and extremely calm on the weighing platform. They have settled down very well since weaning and throughout the education process considering it has only been 1 week since weaning. There was one heifer that reacted very negatively after being caught in the head bale to be NLIS tagged. She thrashed around whilst this occurred and did become quite agitated in the bigger yards. Prior to this she was quiet like the balance of the lot.

Assessor Comments	Buyers here is a lot of Angus x heifers out of some purchased PTIC Angus x heifers purchased from Dunedoo in NSW. They look to have plenty of breeding in them visually and considering they are out of 1st calf heifers have had an excellent start. These are bred in lighter country but don't look to have had any setbacks since birth and I would expect these to perform very well on some heavier country especially now the weaning process is out of the way. They have plenty of shape and depth of barrel evident in the photos/video. They look to be very clear in the eye and no nasal discharges evident that can be prevalent in the winter months after weaning so consider to be in very good health. These will suit to background to heavier domestic feedlot entry weights. Noted one heifer reacted badly to being caught in the head bale and hopefully she will quieten down once back with the balance of the mob between assessment and delivery. Four lots in sale from this property.
