Handled With: Bikes , Horses

Assessor Comments: Good line of EU, Grass-fed & Antibiotic free heifers that have been preg tested empty. Good framed heifers that are starting

	to clean up in the coat and really do up. Heifers are Dulverton and Knowla blood out of good quality "Greylands" cows. Ideal heifers for crop or feed. Heifers would be suitable to top up existing herd and slot straight into a spring join. 1 Heifer has slight blue cloudy eye. Heifers are good to handle although are free flowing through yards and gateways. Some heifers slightly agitated in race when mouthed and weighed but settled quickly. Experienced stock person will have no trouble. Refer videos of heifers in paddock after assessing to make own judgements.
