Assessor	27 excellent quality weaned Angus heifers, 9-11 months, by Kenny's Creek sires and out of large framed Kenny's Creek and Pathfinder blood cows. One mark, account the breeder. Well settled, weaned heifer calves on the do, shedding their winter coat. Showing all the attributes of above mentioned bloodlines and genetics with particular signs of softness, femininity along with length and depth of body. Ideal young heifers to grow out as future breeders with a strong background of Angus genetics, or to feed on to feeder or trade specifications. Vendor also has 37 steers, same description, on offer in same sale.
