Assessor Comments	A b double load of Angus EU feeder steers, right in the slot and full health treatments up to date including the Bovillis MH + IBR vaccination. These steers have had a magificent winter and have done extremely well. Usually sold to repeat feedlot each year, here is the opportunity to secure feeders that will go on and perform. There was 3 steers with some old pink eye scarring and 2 with a small amount of ringworm. Please note the extended delivery period given to suit your induction schedule. If this needed to be varied happy to work around a delivery time.
