Steers are free moving cattle that have had extensive handling ,they have been truck between property's and drafted with ease, steers moved through race and crush easy and only a few that moved on scales, overall very good cattle to handle

Handled With: Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments: An Excellent opportunity to secure a line of 61 one mark Angus steers. These steers are a mixture of Twynam and Booramooka Bloodlines the Duxton Angus cow herd is one of the best around, steers have been extensively handled and trucking making them quiet and easy to handle. Steers were yard weaned and bunker fed in pens over warmer months making them feedlot trained ready to go. Steers are still cleaning up in coats. These steers show plenty of stretch, bone and breeding to be grown out into heavy feeders or bullocks.
