Comment on Fat Score 1 Cattle	Heifers are fit to travel up to 1200 km from Julia reek in one lift. A 12 hour spell is recommended at 800 km if traveling further then 1200 km in one lift. Heifers are in a light store condition however have been in yards on minimal feed since from Sunday to assessment on wednesday and drafted twice in this time, would expect them to freshen up slightly once back in the paddock.
Vendor Bred	Yes
Stock History	100% of mob are vendor bred on property at "Bow Park", using quality Beefmaster genetics since 1960's. Beefmaster was recognised 90 years ago as the first composite breed in the USA. Breed is a combination of 50% Brahman & 50% British breeds.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Out of Vendor Bred, large frame Beefmaster Cows by Beefmaster bulls. Beefmasters adapt to the environment they are bred in for survivability.
Grazing Conditions	Open downs black soil country, pastured with a dry body of mitchell/flinders grass & out of season herbages. Heifers have been exposed to grazing tree browse. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Chemical Residue	Nil

Vendor Comments	Heifers can be purchased by Non EU buyers. Sale only due to shortening feed availability. "Keep" heifers out of this mob preg-tested at 30% 2-4 months in calf would expect approx 20-30% of these heifers to be pregnant however have not been Tested.							
Joining Details	Station Mated bulls put in: 01/06/2021 bulls taken out: 20/08/2021 (81 days) Bull Breed(s): Beefmaster To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.							
Preg Tested?	No, this lot was not pregnancy tested.							
Other Joining Details	Not intentionally joined 1 x bull had access to these heifers for an estimated 2 month period in the date period provided.							
	Frame		Quality Grades		Store Condition		Muscle Score

	Quiet: 72 head		Quiet: 64 head		Temperament not assessed in			
	Slightly Stirry: 18 head		Slightly Stirry: 21 head		Paddock			
	Stirry: 6 head		Stirry: 11 head					
	Good to fair to handle in the paddock and yards. Mustered with Motorbike & Gyro. In the crush/race a fair percentage became slightly agitated however mob generally settled down quickly. generally worked well in larger yards however still had a reasonable flight zone and moved quickly off pressure. no heifers considered aggressive and would expect them to respond well to more handling.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes							
Assessor Comments	Good Quality backgrounder or breeding line of Vendor bred, EU Accredited Heifers. Displaying good to fair muscling with moderate frame and reasonable bone. Currently in store condition, heifers had spent 4 days in the yards with minimal feed at assessment, and display plenty of compensatory & growth potential on productive pasture. Estimate majority of these heifers to grade MSA. Drafted into a line of over 280kg heifers that have been exposed to bulls for a 2 month period, vendors "Keep" heifers out of this line had 30% 2-4 months pregnant and expect similar in these. A good to fair quality line of heifers in store condition with Medium frames and plenty of capacity to grow into breeders or trade heifers. branded number O's with 5 x #9's. The mob are 52% reds and honeys, 10% black / brindle / Brown, 38% grey. Approximately 8/10 heifers have broken or slightly long toes that would be expected to clean up on tighter soils or harder country.							
Assessor	Ashley Naclerio (Level 1 Accredited) Phone: 0400 448 679							
Delivery Period	18/10/2021 to 22/10/2021 (5 days)
