 Other Joining Details Heifers were PTIC on the 19th of August then retested on the 07/10 so although bulls were in til 19/08/21 heifers should be PTIC 25/05/21 - 19/07/21

Temperament	Yards	Crush	Paddock
	Quiet: 37 head	Quiet: 33 head Slightly Stirry: 4 head	Temperament not assessed in Paddock
Handled With	These are very well handled cattle that moved calmly and quietly throughout the yards and crush Bikes , Dogs , Horses		
Assessor Comments	Well bred Angus heifers PTIC to Angus bulls. These heifers are well grown and true to type. They are PTIC to high indexing Rennyalea and Circle 8 Angus Bulls (pedigrees in media). They have been run as a large mob which had the bulls put in on the 25th of May, heifers were then scanned on the 19th of August (when the bulls were removed), all heifers in this mob were PTIC at that time so their calving should be from early March to end of April as they were retested on the 7th of October. One heifer has old eye scar, one heifer with white on belly and udder. Vendor has 2 other lots in this sale		
Assessor	Tessa Cameron (Level 1 Accredited) Phone: 0427 821 006 Assessor declares a financial interest in this lot
