Heifers handled well in yards, odd heifer stirred in crush or when confined. Cattle have been handled exceptionally well with capable stock men on horses using dogs. All cattle go through a program of induction which includes education of electric fences, dogs and horses for approximately a weeks time.

Handled With: Dogs , Horses , On foot , Vehicles

Assessor Comments: A nice line of Angus heifers providing well for their young calves. Heifers have been purchased and calved down specifically as part of the 'Timor Cattle' heifer operation. Heifers present in a store condition and have the ability, if given the chance to grow out into nice cows for the future. Calves are 2-8 weeks of age and average 63kg. Heifers calved with ease and unassisted as they were joined to LBW Angus sires. With all the hard work of calving down future breeders already done, this line of heifers and calves offer a excellent opportunity for the incoming purchaser to put together a good run of heifers. Heifers have been grazing in the hills and for first calf heifers in store condition they are doing a great job on their calves and milking well. Please note in total offering 110 (7) heifers noted with white under the belly, (6) heifer with a blue eye. Heifers will be offered over two lots of 55 and delivered as 2x55 lots unless purchased by the one buyer.
