	These hfrs have previously been handled through the yards and crush and were good to handle. Although on assessment with calves being pulled off them, and coming off quite fresh and powerful feed, they did stir up when weighed and mouthed. Once back in the mob they settled. These hfrs do have a bit of run in them, but can be easily pulled up.

Assessor Comments	Nice line of angus hereford cross heifer and calves. These heifers were purchased from Roma as preg tested heifers and the vendor has calved them down, and with more on the way has decided to sell the early calvers. They are of good framed heifers and doing an excellent job on the calves with plenty of milk. Please note the vendor has another 2 lots of heifers and calves in this sale; another 9 hereford heifers and calves and 10 hereford heifers and calves. Please note there is 4 blue eyes deemed not detrimental and 1 with a turned eye (refer photo) which is one of the quietest heifers in the mob. Calves have all been marked.
