Assessor Comments
An excellent line of Wirruna blood Poll Hereford heifers that are Mar/Apr 2020 drop. They are scanned in Calf to a specialist heifer bull purchased from Wirruna in 2019. These heifers presented as forward store with the lead being prime condition. They show great attributes to being medium to large framed cows and excellent mothers. Heifers are 2-4 months in calf and were joined for a tight 43 day period. Please note, 1 heifer does carry old scarring due to photosynthesis (photo attached).
