	Very impressed with how easy these heifers were to handle in the yards, especially having newborn calves at foot. Only a couple of heifers became slightly unsettled in the crush, once let out they settled completely.		
Handled With	Bikes , Dogs , Horses , Vehicles		
Assessor Comments	A well bred line of Angus Heifers & Calves rising 2 year old. These heifers are Dunoon & Llandarlo blood and were purchased earlier in the year as PTIC heifers. Medium frame heifers presenting in forward condition with length and excellent udders under them. These heifers are doing a great job with sappy calves at foot. The calves are by Rennyalea Q179, which is in the top 1% for IMF at +5.2 and in the top 10-15% for 200 & 400 day growth. This gives the successful purchaser plenty of confidence in the calves performing given the right opportunity. A wonderful opportunity to secure young females with all the hard work done. Calves have been marked & vaccinated. Note: Approx 3 heifers noticed with slight white around udder. Refer to photos.
