Assessor Comments: 56 EU Angus 6/7 year old Cows and Calves at foot 3/4 months of age. The cows are individually weighed from 470 - 710 kg full weight range Average 592 kg, medium/large to large framed cows. They are very well bred from Granite Ridge Angus and Pathfinder blood lines showing plenty of growth and frame in store to forward/store condition and the calves are in very fresh and sappy condition. Herd focus is on calving ease, structure and conformation. All cows have reared a calf each year, these cows are apart of a part herd reduction due to excess stocking. A small percentage of the red tag cows were bought as EU PTIC heifers in 2016.
