	Slightly Stirry: 2 head		Slightly Stirry: 2 head		Paddock			
	cattle were predominantly quiet in yards with only two being slightly unsettled whilst being weighed.							
Handled With	Bikes , Vehicles							
Assessor Comments	EU Accredited - A great line of future breeder PTIC black baldy heifers. Very even line ranging from 480kg - 632kg to average 533kg full weight at assessment. Preg tested to low birth weight Hazeldean and Te Mania Angus bulls. Vendor is a longtime breeder with over 50 years of using quality bloodlines & investment in genetics, Heifers are only being sold as are surplus to needs and herd numbers. Heifers present in strong healthy forward store condition. They carry above average shape, bone, length of body & breed type. They are roomy and appear to be in ideal shape for ease of calving. Previous buyers are always keen to re-purchase these cattle which gives confidence that they are easily managed and perform. They have a short calving window and will be some of the first to calve in 2022. This vendor has 2 other lines of PTIC heifers in this same sale totaling 49 all up. Highly recommended heifers from a breeder that aims for quality.
