Assessor Comments	Great line of young bucks 3 to 6 months old in strong forward condition, the work is all done they can be put into a feedlot or into a paddock of scrub, grasses or crop and grown out to take advantage of the strong goat meat market. They are currently being supplementary fed pellets so are trained to feeding, are very quiet to handle in the yards and are fence trained. Off the 48 goats handled 73% were Boer cross and 27% were Rangelands type.
