Assessor Comments	A very good line of high quality Merino Wether lambs, bred in the hills these lambs will produce a high quality fleece given the right opportunity. The Moore family have been only buying Rams from Nerstane for the Past 30 years with no other bloodlines introduced into the flock. They are unmulsed and ready to go on with. Please note majority of these still had lambs teeth at assessment whoever appear to be cutting their teeth at the moment. Ideal sheep to take on to produce a high quality fleece and produce a good size export body at the end provided the correct conditions.
