Assessor Comments	138 White Dorper store wether lambs averaging 30.6 kg at assessment. These lambs are in fresh store condition, powering ahead on an Oat crop supplemented with a grain mix. These lambs show plenty of potential being heavily muscled bodies full of shape. They are May/June drop lambs who's mothers were joined for 6 weeks resulting in a very even line of lambs. This mob was 100% weighed from 26kg - 33kg with a 10% tailed removed. They are from a self replacing 'ETIWANDA' blood flock with the vendor purchasing high quality rams annually. Last years lambs were grown out and topped at over \$250 showing plenty of potential for these young store lambs. Buy with confidence. Buyers Note: Vendor has a lead draft in sale.
