Assessor Comments	An excellent run of true 2nd X lambs on behalf of Coolamatong Partnership. The lambs are the lead run of 600 2ndX lambs that are annually sold as stores. Lambs are still very fresh and sappy with the odd lamb just starting to dry out. These lambs have performed very well in the past for buyers, being very suitable for the domestic or export markets if given the opportunity. Sired by top quality Portadean (Armdale base) Poll Dorset rams out of large framed Monaro bred 1X ewes. These lambs would suit any fat lamb operation but could benefit from shearing in the near future. Lambs are showing plenty of bone and stretch and will quickly reach kill weights on grain. Lambs have been crutched but any dirty lambs will be done again prior to delivery. Please note: One lamb noted with black patch on hind leg. Odd lamb with very light bathurst burr around top notch. Agent can arrange freight to Riverina with weekly market trucks.
