Assessor Comments	The "Weepowi" Dohne wether lambs. **WILL BE MARKET CRUTCHED PRIOR TO DELIVERY** 175 very good quality wethers showing freshness and growth for age. These lambs are bred out of large framed principally Gullendah blood ewes from a Uardry base by rams selected for carcase traits, early maturity and wool quality. Majority still fresh and on the do growing rapidly. Riverina style Dohnes that will grow out to heavy trade or export weights given appropriate management and feed. June/July drop, weaned, 39.4kg at assessment. Refer photos and skin comments regarding seed and expect more barley grass seed at delivery, however I wouldn't expect risk of skin penetration. Highly recommended lambs. *Approx 5% scurs *Approx 3% Weepy eyes from barley grass irritation.
