Assessor Comments	Great opportunity to acquire a neat line of weaned suckers, that are considerably fresh for being weaned at such a young age (26/08). Note the youth of these lambs, they are genuine June drop and have preformed to date. Displaying plenty of shape and depth. Would be the ideal article to take on to Background/Feedlot into more domestic or export weights. Or retain the ewe portion. Out on Pure Tolland Dams, with introduced Tolland rams selected for positive meat traits as well as wool. Were given a 6 in 1 at marking and a weaner guard 6 in1 at weaning. Note - All hae been market crutched however there is one or two that present with dry dag around hocks post crutching. Note - four lambs presented with small scurs
