Assessor Comments	The seconds of the Cloverside 2nd x lambs, by the Englewood Park Poll Dorset rams and out of medium framed 1st BL Merino x ewes. Weaned at assessment. These late drop lambs are the second draft of 500 beautifully bred lambs with size, shape and fat cover. The Cloverside lambs are normally sold as suckers to the supermarket trade, however after an extremely wet winter, these lambs have been weaned and will suit a refinisher or feedlot. The lambs were wet and washed out at assessment and photos. Shear and watch them grow and fatten. All lambs will be keyholed before delivery. A great chance to put 500 lambs together, this second draft will lower your average.
