| Assessor Comments            | Good quality line of 132 traditional M-J drop BL/MO ewe lms. Well bred from large frame Old ASHROSE mo ewes & sired by high index INVERBRACKIE BL Rams. Average 34.3kgs , range 26-43KGS.. The majority of the consignment range between 28-38kgs, hence the line is quite even & these lms if put on good quality feed will mate up no problems this mating season. They are well bred from a vendor where good money is spent on genetics. Bred from Rams where there is a focus on fat, PWT & NLW. These lambs have plenty of potential, are fresh, weaned & are very young so have plenty of time to grow out into nice breeding ewes given the right feed and conditions. Are priced to sell. |            |                   |
