Assessor Comments	Due to moving towards an 'Aussie White' operation, vendor has presented for sale, his entire Dorper & White Dorper flock of EWES & their lambs at foot for sale. Ewes are mixed aged & range from store to forward store condition, otherwise 'sound & robust'. There were 154 lambs counted at assessment. Majority of older lambs 'marked' retaining 'tails' & younger lambs will not be marked. Lambs display quality, with some outstanding lambs present. Please note 'green lambs' & any ewes unfit to travel due to the late stage of pregnancy state will not be loaded. Lambs will be loaded along side their mothers. Long distance travel would not be recommended. These joined ewes along with their lambs create an ideal opportunity as an excellent 'start up' flock for a grower looking to enter the sheep meat industry.
