Assessor Comments	Vendor presents 140 quality White Dorper & Dorper S.I.L ewes. Ewes present in strong store to forward store condition with 47% score 2's & 17% score 3's, to av 56 kg after a long 48hr curfew. Ewes had lambs weaned off them on the 27/09/21. Ewes are approx 1 to 8 years of age, being continuously joined to top quality Bellevue White Dorper & Dorper Rams. Ewes were 100% S.I.L 1 month to 4.5 months in lamb on the 14/10/21. Having plenty of frame & being scanned in lamb to top quality rams these ewes present themselves as a extremely good trade article to buy, lamb out, fatten & turn over , it must also be said that the younger portion of these ewes still have a lot of good breeding years left in them & would be an asset to any dorper breeding herd. Please note 2 overshot jaws noticed when mouthing, approx 5 % of ewes noticed with red markings not considered detrimental. All fit to load precautions will be in place, if any ewes considered to heavy in lamb will not be loaded.
